This paper is responsive to the Restriction Requirement mailed on 05/30/06.

Per Examiner's request, Applicant herein elects to prosecute the claims of Group I (Claims 1-10 directed to a compound of formula I and to pharmaceutical compositions comprising the same). Applicants submit that once the compounds of the present invention are found to be novel, then the other Groups defined by the Examiner that contain any compositions of matter containing those compounds should also be found to be novel and rejoined. Likewise, pursuant to linking claim practice, at least one of the method claims should be rejoined.

Furthermore, Applicants affirm their right to file one or more divisional applications with respect to any of the non-elected subject matter.
